DAVIDSON COLLEGE.

Davidson College is in Mecklenburg County, North Carolina. It is twenty-three miles north of Charlotte and twenty-four miles south of Statesville; and, being immediately on the line of "The Atlantic, Tennessee, and Ohio Rail-road," is of ready and comfortable access at all times. Its buildings contain spacious Chapels, Society-halls, and Lecture-rooms, together with pleasant dormitories sufficient for a large number of students. Its Libraries, Cabinets, and Apparatus are well provided for, and are constantly receiving accessions; so that the means for securing a liberal education at Davidson College are surpassed by few institutions in our country. The site of the College and of the adjacent village is remarkably healthy, being free from malaria and other local causes of sickness. The adjacent counties are so thickly settled with a population widely and honorably known for its intelligence, morality, and thriftiness, that the means of living at the College are cheap and abundant, and temptations to students to form vicious or extravagant habits are comparatively few.

Although the College was organized and is controlled by Presbyterians, the instruction is not sectarian, but such as can be freely and equally offered to all students of good moral character and of proper mental qualifications. The institution was chartered "to educate youth of all classes, without regard to the distinction of religious denominations, and thereby promote the more general diffusion of knowledge and virtue;" and its founders have frequently and publicly declared that their design was "to extend the blessings of a liberal education to all classes of the community prepared to enjoy them."

TERMS OF ADMISSION.

——:o:——

No one will be admitted as a student of the College without producing testimonials of good moral character, and also a certificate of honorable dismission from the last school or college which he has attended.

Candidates for the Freshman Class are examined on the following books and subjects, viz.:

English. Grammar; Modern Geography.

Latin. Grammar (Bingham's preferred); four books of Cæsar's Gallic War; six books of Virgil's Æneid; Cicero's Orations against Catiline; Sallust; Ancient Geography.

Greek. Grammar, Reader; first two books of Xenophon's Anabasis.

Mathematics. Arithmetic; Algebra, to equations of the second degree.

Advanced Standing.—All candidates for advanced standing, whether from other colleges or not, in addition to the preparatory studies, are examined on those previously pursued by the classes which they propose to enter. Resident graduates may at any time avail themselves of the advantages of the College without any charge for tuition.

Age.—No one can ordinarily be admitted to the Freshman Class till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

All college dues for the term must be paid in advance.

On entrance each student will be required to give a pledge of honor faithfully to observe and obey all the laws and regulations of the College while he continues a member of it.

CLASSICAL COURSE OF INSTRUCTION.

This course occupies four years. The following scheme presents a general view of the studies pursued in each term of the collegiate year. The hours of recitation have been so adjusted that any student may recite with the classes of two consecutive years.

FRESHMAN YEAR.

First Term.

Bible. Old Testament History, Chronology, and Geography.

English. Fowler's Grammar.

Latin. Gildersleeve's Grammar throughout course, Cicero de Senectute (Chase and Stuart); Gildersleeve's Exercise Book, course I.

Greek. Hadley's Grammar throughout course; Xenophon's Anabasis, books III. and IV. (Owen); Composition.

Mathematics. Towne's Algebra.

Second Term.

Bible. See first term.

English. Trench's Study of Words; Hart's Composition and Rhetoric, to chapter IV.

Latin. Cicero de Amicitia (C. and S.); Satires and Epistles of Horace (C. and S.); Exercises, course II.

Greek. Xenophon's Memorabilia (Robbins); Herodotus (Johnson); Composition.

Mathematics. Algebra; Peirce's Geometry.

SOPHOMORE YEAR.

First Term.

Bible. New Testament in Greek, Harmony of the Gospels.

English. Hart completed.

English Literature. Shakspeare's Julius Cæsar.

French. Ahn's Method; Otto's Reader.

Latin. Cicero's Tusculan Disputations (Chase); Exercises, course III.
Greek. Plato's Apology of Socrates (Tyler); Composition.
Mathematics. Peirce's Geometry.

SECOND TERM.

Bible. Same as first term.
Logic. Bowen; Lectures.
French. Reader; Exercises; French Drama.
Latin. Livy, books XXI, and XXII, (C and S.); Horace's Odes, Epodes, and Art of Poetry (C. and S.); Exercises, course IV.
Greek. The Crito of Plato (Tyler); Homer's Iliad (Owen); Composition.
Mathematics. Trigonometry and its Applications (Loomis).

JUNIOR YEAR.

FIRST TERM.

Bible. N. T. in Greek Epistles.
Evidences of Christianity. Alexander.
Latin. Cicero de Oratore (Kingsley); Composition.
Greek. Demosthenes on the Crown (Champlin).
Mathematics. Analytical Geometry.
General Chemistry. Lectures; Roscoe.

SECOND TERM.

Bible. Same as first term.
Rhetoric. Whately.
Political Economy. Champlin; Lectures.
Latin. The Germania and Agricola of Tacitus (Tyler); Terence (Davies); Composition.
Greek. Thucydides (Owen); Greek Drama; Composition.
Mathematics. Differential and Integral Calculus.
Physics. Snell's Olmsted.
General Chemistry. Lectures; Roscoe.

SENIOR YEAR.

FIRST TERM.

Bible. New Testament in Greek, Epistles.
Mineralogy. Lectures, and specimens.
Practical Chemistry. Qualitative Analysis.
Metaphysics. Hamilton (Bowen).

Physics. Rational and Applied Mechanics.
Law. Constitutional (Townsend); International.
Rhetoric. Original Speeches.

SECOND TERM.

Bible. See first term.
Evidences of Christianity. Butler's Analogy.
Geology. Lectures; Fossils; Dana.
Practical Chemistry. Qualitative Analysis.
Astronomy. Descriptive and Physical.
Metaphysics. Cousin's True, Beautiful, and Good; Alexander's Moral Science; Bp. Butler's Sermons.
Rhetoric. Oripinal Speeches.

Declamation and English Composition throughout the entire college course.

SCIENTIFIC COURSE OF INSTRUCTION.

This course occupies three years and embraces all that is in the Classical Course, except the Latin and Greek Languages, together with some studies peculiar to itself. The Scientific Students and Classical Students recite together whenever their studies are the same, and they have the same number of recitations a week. At the end of this course students, if their examinations have been approved, receive the degree of Bachelor of Science.

The requisites for admission to this Course are the same as for the Classical Course, with the exception of the Ancient Languages. The order of Studies is as follows:

FIRST YEAR: The Bible.

English Grammar, Trench, Hart, Algebra, and Geometry, with the FRESHMAN CLASS.

English Literature, Logic, Hart, and French, with the SOPHOMORE CLASS.

Botany, Physiology, Higher Arithmetic.

SECOND YEAR: The Bible.

Geometry, Trigonometry and its Applications, with the SOPHOMORE CLASS.

Evidences of Christianity, Rhetoric, Political Economy, Physics, and General Chemistry, with the JUNIOR CLASS.

Butler's Analogy, Constitutional and International Law, with the SENIOR CLASS.

THIRD YEAR: The Bible.

Analytical Geometry, Differential and Integral Calculus, with the JUNIOR CLASS.

Constitutional and International Law, Physics, Metaphysics, Astronomy, Practical Chemistry, Mineralogy, and Geology, with the SENIOR CLASS.

Declamation and English Composition throughout the entire Course.

ECLECTIC COURSE OF INSTRUCTION.

Students not wishing to take a regular course, but to acquire a knowledge of particular branches, may be permitted to do so at the discretion of the Faculty; but they will be subject to the same laws and regulations of the College as regular students.

MODES AND MEANS OF INSTRUCTION.

Well approved text-books, are constantly used in all the departments of the College, and Lectures on various subjects connected with the course of instruction are delivered to the students according to the judgment of the Professors. The students are examined on the Lectures as well on the text-books.

The Apparatus for illustrating the facts and laws of Natural Philosophy and Astronomy well selected, has been and will constantly receive such additions as Science demands.

In the Department of Chemistry, Geology, and Natural History, there are convenient and well filled Laboratories and excellent

Cabinets of Minerals, Fossils, and Modern Shells; and these are all used freely in the course of instruction. Chemistry is taught in theory and in practice; and in Mineralogy and Geology, great care is taken to make the Students familiar with the minerals and fossils discussed.

EXAMINATIONS.

Every student is examined publicly at the close of the first term on the studies of that term, and at the close of the second term on all the studies of that year. These examinations are in writing, and determine to a great extent the rank in scholarship assigned to each student in the term reports, which are sent to parents and guardians.

THE ROCKWELL PRIZE.

This prize is offered annually to the Sophomore Class for excellence in Latin scholarship. An Umpire or a Committee, appointed by the Faculty, shall make the award for the best paper prepared at a competitive examination, which shall be in writing. The Prize shall be delivered on Commencement day by the Chairman of the Faculty.

SOCIETIES.

There are in connection with the College two Literary Societies, the Eumenean and the Philanthropic. Their halls are large and elegantly furnished, and their libraries are well selected.

The Williams Association of Inquiry was named in honor of Rev. Edwin Williams, a missionary to Africa, who was prominent in its organization. The design of this association is to assist in benevolent and religious labors at and around Davidson College, and to maintain a special interest in the spread of the Gospel throughout the world.

RELIGIOUS SERVICES.

The clerical members of the Faculty preach on the Sabbath, and superintend the administration of all the ordinances of the Church in the College Chapel. Every student, while at the College, is required to attend public worship on Sunday morning, and to be present at the daily morning and evening prayers. He is also required to attend the instructions in the Holy Scriptures, with which his class begins the studies of each week.

EXPENSES.

The collegiate year is divid d into two terms. The ordinary expenses for each of these terms are as follows:

	FIRST TERM.	SECOND TERM.
Tuition,	$20	$30
Room rent,	6	9
Servant's hire,	4	6
Contingencies,	2	3
Total,	$32	$48

Board can be obtained at the Steward's Hall and in the village at from $10 to $15 a month.

Students can board themselves in "clubs" at about $8 a month.

Each student must pay for Tuition, Room rent, Servant's hire, and Contingencies, as soon as he joins College.

Wood can be bought for $2 a cord. Washing will cost $1, or $1.50 a month, and Light about $3 a year. Text-books can be obtained at the retail prices of their publishers.

The whole of the ordinary college expenses for one year exclusive of clothing, travelling expenses, and pocket money, is estimated to vary from $200 to $230. Parents and guardians are earnestly requested not to furnish more money than is strictly necessary; as any amount beyond this will not contribute either to the real comfort or to the respectability of the student.

Candidates for the Ministry are not required to pay for tuition while under the care of some Presbytery.

The Bursar of the College will take charge of money intended for any student and expend it according to the direction of his parent or guardian.

———:o:———

NOTE.—Since the printing of the first part of this Catalogue, Mr. R. H. Smith, of the Junior Class, has sustained a satisfactory examination and thus made himself a Junior in full standing.
